

Emmanuel Okeowo

Applied AI Engineer · RAG & LLM Systems · Production APIs

Lagos, Nigeria · okeowoemmanuelm@gmail.com · epicnode.hostless.site · github.com/EmmanuelM0147 · linkedin.com/in/okeowoemmanuelm

SUMMARY

Applied AI Engineer specializing in RAG pipelines, LLM integration, and production APIs. At Kings Technologies And Innovations I own Gardenia AI features; at Keyrium Consulting I lead fintech backend platforms. I ship grounded retrieval systems, streaming LLM features, evaluation/monitoring, and reliable backend services from architecture through deployment.

EXPERIENCE

Artificial Intelligence Engineer — Kings Technologies And Innovations Dec 2025 – Present

Lagos, Nigeria · Remote · Full-time

- Own AI features for Gardenia and the AI Tools workspace: recommendation services through REST APIs.
- Design prompt and schema contracts; control live model access through environment variables.
- Build with Python, FastAPI, and LLM integrations.

Lead Backend Engineer — Keyrium Consulting Aug 2026 – Present

Lagos, Nigeria · Hybrid · Full-time

- Lead production REST APIs for Loyalty Rewards and Stock Trading platforms (Node.js, TypeScript, PostgreSQL).
- Built RAG-assisted internal tooling for documentation search and applied AI workflows.
- Own architecture, third-party integrations, Docker/AWS deployment, and testing (~85% coverage).

Senior Software Engineer — Keyrium Consulting Jul 2025 – Jul 2026

Lagos, Nigeria · Hybrid · Full-time

- Architected secure systems and integrated third-party services for multi-channel communication.
- Established a testing framework with 85% code coverage; reduced post-deployment bug reports.

Software Engineer — MySoundsGlobal Sep – Nov 2025

Remote · Contract

- Improved query performance 40–60% via indexing and join optimization; boosted API throughput 30–50%.

Backend Software Engineer — Talenvo Apr – Jul 2025

Remote · Freelance

- Built event platform APIs with JWT auth, PayStack integration, and PostgreSQL optimization.

Software Engineer — Folio Technologies Ltd Jan 2023 – Jun 2025

Lagos · Hybrid

- Delivered multi-provider auth (JWT, OAuth 2.0, MFA), RBAC, caching, and production API integrations.

SELECTED AI PROJECTS

Gardenia AI Platform

AI recommendation services and AI Tools workspace: REST APIs, prompt/schema contracts, and environment-controlled live model access (Python, FastAPI).

ChefBot-AI

Grounded inventory-aware recipe RAG with FastAPI, Qdrant, Gemini 2.5 Flash streaming, PostgreSQL monitoring, Streamlit UI.

FAQ RAG Pipeline

Semantic retrieval and LLM-powered Q&A with Python and vector search.

Inflammatory Speech Flagger

ML classifier with FastAPI, Streamlit UI, feedback monitoring, and live demo deployment.

SKILLS

Python

FastAPI

RAG

Qdrant

Gemini API

OpenAI API

LangChain

Streamlit

Node.js

TypeScript

PostgreSQL

Redis

Docker

AWS

MLOps

Git
