

Emmanuel Okeowo

Full Stack / Backend Engineer · Fintech · Payments · Applied AI

Lagos, Nigeria · okeowoemmanuelm@gmail.com · epicnode.hostless.site · github.com/EmmanuelM0147 · linkedin.com/in/okeowoemmanuelm

SUMMARY

Engineer who builds and ships fintech platforms end-to-end — REST APIs, auth, payment integrations, cloud deploy, and testing. Strongest on backend services and AI feature integration; comfortable collaborating across web and mobile on API contracts and feature delivery.

EXPERIENCE

Artificial Intelligence Engineer — Kings Technologies And Innovations Dec 2025 – Present

- Own Gardenia AI features: recommendation REST APIs, prompt/schema contracts, Python/FastAPI.

Lead Backend Engineer — Keyrium Consulting Aug 2026 – Present

- Lead Loyalty Rewards and Stock Trading platforms: Node.js, TypeScript, PostgreSQL, Docker, AWS.
- Payment-adjacent flows, third-party integrations, secure auth, ~85% test coverage.

Senior Software Engineer — Keyrium Consulting Jul 2025 – Jul 2026

- Built secure backend systems, third-party integrations, and a comprehensive testing framework.

Backend Software Engineer — Talenvo Apr – Jul 2025

- PayStack integration, JWT auth, PCI-DSS-aware event platform backend.

Software Engineer — Folio Technologies Ltd Jan 2023 – Jun 2025

- Production APIs, OAuth 2.0/MFA auth, RBAC, caching, mobile client integrations.

Associate Software Engineer — Headstarter Aug – Dec 2022

- Full-stack apps with React, Python, Django REST, PostgreSQL.

RELEVANT STACK

Node.js TypeScript React Next.js REST APIs PostgreSQL MongoDB AWS Docker Git
Testing PayStack Groq/LLM APIs RAG Python

PROJECTS

- Gardenia AI Platform — recommendation services and AI Tools workspace (Kings Technologies)
- Keyrium fintech backends (Loyalty, Stock Trading) — private production systems
- ChefBot-AI — RAG pipeline with FastAPI, Qdrant, Gemini (GitHub public)
