SUMMARY

Lead backend engineer with 5+ years building production systems end-to-end — architecture, REST APIs, third-party integrations, deployment, and testing. At Keyrium Consulting I lead Loyalty Rewards and Stock Trading platforms. Strong in fintech, identity/payment-adjacent flows, and scalable platforms optimized for speed, reliability, and cost.

EXPERIENCE

Lead Backend Engineer — Keyrium Consulting Aug 2026 – Present

Lagos, Nigeria · Hybrid · Full-time

- Lead Loyalty Rewards and Stock Trading backends: Node.js, TypeScript, PostgreSQL, Docker, AWS.
- Architect secure auth, third-party integrations, CI/CD, and Docker-based deployment workflows.
- Prototype RAG-assisted internal tooling for documentation search with Python (FastAPI).

Senior Software Engineer — Keyrium Consulting Jul 2025 – Jul 2026

Lagos, Nigeria · Hybrid · Full-time

- Architected secure systems and integrated third-party services for multi-channel communication.
- Established a testing framework with 85% code coverage; reduced post-deployment bug reports.
- Supported KYC-adjacent onboarding and portfolio flows on a social fintech platform.

Software Engineer — MySoundsGlobal Sep – Nov 2025

Remote · Contract

- Cut query latency 40–60%; improved API throughput 30–50% with middleware tuning and Redis caching.

Backend Software Engineer — Talenvo Apr – Jul 2025

Remote · Freelance

- Built event management APIs with JWT/RBAC, PayStack payments, PCI-DSS awareness, PostgreSQL at scale.

Software Engineer — Folio Technologies Ltd Jan 2023 – Jun 2025

Lagos · Hybrid

- Multi-provider auth (JWT, OAuth 2.0, MFA), RBAC, caching (up to 80% faster repeat loads), AWS integrations.
